PROFESSIONAL SUMMARY

Innovative and results-driven Electronic Information Engineering professional with a strong background in product management, technical project delivery, and overseas business development. Proven expertise in defining product visions, managing digital telecommunication network deployments, and integrating cross-functional solutions. Highly adaptable with a passion for leveraging technology, data analysis, and machine learning to solve real-world problems. Seeking to further technical expertise and contribute to forward-thinking academic or industrial research environments.

PROFESSIONAL EXPERIENCE

Swiftplus Technology Company Limited | Shenzhen, China

Product Manager

July 2024 – Present

- Define and execute the product vision, strategy, and roadmap for innovative mobile payment solutions.
- Identify market trends and customer needs to drive innovation and maintain a competitive advantage.
- Oversee the design, development, and enhancement of payment gateway services, SDKs, APIs, and mobile payment platforms.
- Collaborate cross-functionally with engineering teams to ensure seamless integration of payment solutions into mobile applications and websites.

Shenzhen Eran Technology Company Ltd | Shenzhen, China

Overseas Sales & Development Engineer
2024

Dec 2023 – July

- Targeted potential customers in assigned international territories, assessing needs to align with company products.
- Built strong rapport and trust with international clients through frequent communication and serving as a trusted technical advisor.
- Negotiated mutually beneficial agreements on pricing, contracts, and service terms to successfully secure sales.

Whale Cloud Technology Company Ltd (Alibaba Cloud) | Nanjing, China

International Project Delivery Engineer (BSS Department)
2022

Oct 2019 – Dec

- Delivered the Modernization of Digital Telecommunications Network (MOTN) project for Bangladesh Telecommunication Company (BTCL).

- Successfully deployed and integrated FTTH-based optical fiber technologies in Bangladesh.
- Led the testing, installation, and deployment of critical software and hardware components, ensuring compliance with government standards.

EDUCATION

Bachelor of Science in Electronic Information Engineering | Nanjing University of Posts and Telecommunications, China

Sept 2016 – June 2020

Thesis: Internet traffic classification based on nearest neighbors.

Relevant Coursework: Digital Signal Processing, Data Communication, Embedded Systems, Optical Fiber Communication, Wireless Networks, Information Theory, Computer Architecture, IoT, C/Python/JavaScript.

PUBLICATIONS

- **Smart Cities and Cyberattacks in Communication Networks: A Case Study of Water Treatment Plants.** Md. Sadi Iftia Khairul, et al. (Recent/Forthcoming).
- **Real-Time Vehicle License Plate Detection and Recognition Using YOLOv9 and OCR Framework in Urban Traffic.** Md. Sadi Iftia Khairul, A. F. M. Zainul Abadin, Mohammad Kamrul Hasan, Sohag Sarker. (2025).
- **Air pollution prediction and classification with a hybrid ANN-LSTM model in modern cities: a comparative study.** Mohammad Ariful Islam Rafi, Moshir Rahman Sohan, Golam Jilany Rayhan, Md Sadi Iftia Khairul, et al. (2024).

SKILLS & CERTIFICATIONS

Technical Skills: C Programming, Python, JavaScript, IoT, Embedded Systems, Machine Learning Models (YOLOv9, ANN-LSTM).

Languages: English (Fluent - C1/C2), Bengali (Native), Chinese (Conversational - B1), Hindi (Conversational), Arabic (Basic).

Certifications: CyberSecurity Forensic Analyst (Udemy, 2023), Full Stack Web Developer (Udemy, 2023), ZSmart BSS Product Training (Alibaba Cloud, 2020).

HONORS & LEADERSHIP

- Best Young Talent, Alibaba Cloud (Feb 2020)
- Nanjing Municipal Government International Students Scholarship (Sept 2016)
- Vice President, International Students Union, NJUPT (July 2017 – Sept 2019): Coordinated cross-cultural exchange programs, academic events, and acted as a liaison between university administration and the international student body.
- Participant, International Symposium of IKCEST under the auspices of UNESCO (Oct 2018)
